Teaching in a Which Form Designer to learn From Yes Workmanship

Key words: learning, mastery, football

Introduction

In educational process of the development of new and continuing through the offer studies and research of opinions and theories which were in turn enrich the process of educational methods and styles of different , the development of which reached the J e methods and methods of modern to the level of scientific and linked into the data science and other e y possible From through this combination knit in achieving leaps quality great in the field of sports to reach learners to better levels of where the numbers overall and all aspects of the matter , which paid researchers based on practical instruction be racing not Ejad methods consistent and development that taking place in our world today with that knowledge Teacher of Broad In ways Teaching And strategies Education Miscellaneous And his ability On Use it Help him without Doubt in a knowledge Circumstances Teaching Applicable command Which Makes From Process Education On level From Excitement And the suspense And have fun Including Proportional to And What Enjoy with it From Capabilities When Become Practical of Education Stay Impact And with Link Their lives Daily , Has been I knew Way As a) Allah c Which Followed him The mind in a Access to me My goal. (*Mohammed, 2008*) and it Valmadrs efficient, which can diversify the use of methods and all what is new in their respective fields to avoid the case of boredom and boredom that accompanies the learner during the learning resulting from the use of the teacher for the style of uniform and all learners who may not lead to learn the skill form right if what we know e n the learner is affected and to some extent large methods and styles that followed the teacher , as Varied Strategies And modalities Teaching Varied Also Techniques Teaching , And also Should Signal to me that Techniques Teaching It is not Court The steps Add to me It No going According For terms And standards Specific but she Mortgaged In the teacher And his personality And his emotions And also Gestures And notifications Of my labor t for Value And others . Lost We find that Differences may be Appear in a Levels Collectible Students for every Teacher Nor Attribute this is The differences to me method Teaching but to me Style Followed From Before teacher On consideration that method Teaching to her Its characteristics And its steps Selected And Agreed on her ,Has been He knew)Mahmud David 2005 (Style he is How Which Eating In which teacher method Teaching during resurrection In operation Teaching . Literature review

¹ Faculty of Education Physical and Sport sciences/ University of Baghdad

Education is based on the basis of experimentation will be more and faster impact of education based on the basis of indoctrination is known as e n material football is one material that contained in the Platform for Education sports stage first and of many of the skills essential that should the teacher Article delivered to the learner and a good of order to raise the level of sports and this requires the use of style the most sophisticated including (style Alatghani) from among a group of methods which accompanies the type of activity your skill scoring reel foot , as well as the extent of the impact of this technique in the process of learning in order to enable the teacher to achieve objectives of educational and that is the goal of each lesson from the lessons of Education Sports that idea style Learning get up On Number Of assumptions Come in an Introduction to it That all Educated They can that a Most Skills the basic And that From Through Mow cent The desired skill Learn it to me Units And sections Distinctive And clear Give in a One lecture or in a Several lectures Through One week And Give Students Test in an End Each part So did not The student arrives to me the level or Class From Workmanship in a This the test80% or 90%) They increase by time and teaching Overtime Until They become Able On Collectible Degree Workmanship On the test Recycled (**Mahmoud, 2010**) As the process of delivering information from the teacher to the student affected to some extent large methods that followed the teacher being in charge of the process of educational matter which requires the selection careful of the way a and method including consistent and capabilities of the learners so that can achieve a preferred results pestilence less effort and time is shorter as much as possible . It is through the lectures first stage appeared there decrease in the level of skill of the game of football at the students stage, whether it was that at the level he studied education sports, it which made the difficult access to achieve the only scorer of educational and educational set curriculum may be so because of their use of the method taken from by the teacher) only ordered (which is not in line with the methods of modern that of would improve the level of skill). So sees the researcher importance of using the methods of a new response reaction to the failure happening in an environment of education and in accordance with the trends of educational modern , and he has hired a researcher fashioned way Alatghani have yielded the results of this study in the E. singing process of the teaching of where to gain time in the process of learning and mastering the student skill subject of study leading to A better level of performance in order to be able to face the practical reality in society. Items of perfect Learning Consists of entrance learning from Elements Coming: Objectives Selected Clear So Should that remember Objectives in a way Clear in a Start - Process Learning. Test Codified For the learner and he Decide the level Present Learn requester Than Makes It is possible - Put it in a the place the correct From a path Learning And Provide Materials Learning Effective . Teaching in a Which Form Designer to learn From Yes Workmanship Then is being Target that Works Each-Student perfectly From through Test Strategies Educational occasion and therefore Height At the level of achievement requester. Test Diagnosis Uses This the test during The performance Operation Teaching For a statement What if It was - The learner Progressing as such he is expected from him And is being Order Educated According to Degrees Their progress And choose method Teaching Which They need to her And as Suits them . Coaching Includes in this is Step Strategies Therapeutic has been Provide us this is Step Including - Confirms that requester score Advanced or over there need to me Matter Rich or Learn Individually from Individuals. (**Joseph, 1999**)

Methodology

The researcher used the experimental method for its suitability and the nature of the research and the research community was selected students The first stage At a university Baghdad Adult Their number) 281 (Year For the year Academic 2018 - 2019 Distributors On 8 People And the way Mayors Done Selection Section)(F) The 35 students To apply In style Proficiency in my division)G(Totaling 33 students a T apply Normal method ,Has been Done Excluded Number From Individuals the sample And they Students Repeaters are not always committed.

Means, tools and devices are used in the research. Sources Arabic And foreign - note And experimentation - testing And measurement - form evacuation Data - bar Measurement, Rope, Matter Alburk Balance medical To measure Weight - Hour Bionic Number (2) - blackboard, whistle

The main experience: Done Procedure the exams Tribalism Damn search On 2/17/2019 in a Football field in the College of Physical Education and Sports Sciences Completion the clock The tenth And half in the morning Has been Proved Results From Before Rectified Two

Curriculum vocabulary: It took Syllabus Educational Duration of 4 weeks. Number Units Educational in the week 2 Alone Educational. Number Units are Educational 8 Units in a Four Weeks. Time Unit is Educational 60 Accurate. After the completion of the implementation of the vocabulary of the curriculum scheduled; we have been a test posttest on 15/ 3 /2019. It was hold them under the same circumstances, time and requirements, which was conducted by testing tribal. The statistical bag was used SPSS For statistical processors.

Results

- **The results of the scoring skill test for the experimental group present the mastery learning style.**

Table 1 between the circles calculations and deviations of the standard and the results of the test (t) between the two tests pre and post to evaluate the performance of the technical skill scoring hate football experimental group

the test	Tribal		Dimensional		Values t	indication
	s	±p	s	±p		
Experimental group	5.80	0.94	11.93	0.720	19.06	Moral

Table 2: Between the circles calculations and deviations of the standard and the results of the test (t (between the two tests pre and post to evaluate the performance of the technical skill scoring hate football experimental group

the test	Tribal		Dimensional		Values t	indication
	s	±p	s	±p		
Control group	5.40	0.83	8.07	0.70	9.28	Moral

Table 3

the test	Experimental group Mastery style		Control group The method used		Values t	indication
	s	±p	s	±p		
Control group	10,80	0.60	7.12	0.62	16.03	Moral

From Through The tables (1, 2 and 3) We see that The differences she was Moral between The two tests Tribal And after In skill Scoring roller Foot And for both My group search, Attribute researcher This to me effectiveness Two tutorials Users whether For the group Control Which Have used the program Stomacher Which Style included Followed by the group Experimental Which Have used Programs Metal Which Style included To teach the students Skill Restrict studying as such be seen researcher that Progress Which Got at the group Experimental distance Implementation of Programs Educational For a purpose has evolved Skill Which Eat it The researcher said that Denotes On This the program Which It took(4) Weeks Really Two units Two tutorials weekly as It was It has the effect Positive On level Development. As well as About Importance Continuity With training And attendance On implementation the program And focus the students And their desire be informed this is Skill in order to Reach to me Stage Nearby From the mechanism And can that is being that About Way "Repetition and more Number Times To perform the movement In full (Mohamed, 1998) Also Indicate Results Shown in a Table 3 in the exams Dimensional About Presence Differences Related Moral indication between The two groups in a the test Skillful And in favor the group Experimental And Which I practiced style, and this is Denotes On that Learning It was Best At this is the group . And ray researcher It is that Style Depends On Considerate The differences Individual in a level And his speed Learn Educated All according His ability Own And that From Through The sequence in a Learning From Easy to me Difficult And Non Move to Matter New Unless Perfects Subject The first He confirms)Mahmud Happy that Learning Provides in a way Court And fun To increase Probability Maturity Larger Number From the students To level Patients From the performance in a Threads studying Various (Mahmoud, 2010) that Access the students to me level Of performance Mastered And successful Rather Requires Utilization Repetition Which Lead to me change relative or Fixed In behavior calendar To repeat And correction And who In turn Lead to me has evolved Skill And access to me Good technique and this is get up On Basis Give Educated Twice as much the performance And as Chimes And nature Researched skill gesticulate Excel with it From diversity in a the performance As well as About Degree The difficulty Which Accompany the performance The matter that Requires level From Capacity Physical And skill And by submitting serial or successive To master Skill before Feet On performance Skills Hard And vehicle and this is Embodied In style Which Is a form a To learn From Through division content Subject Tuition to me Units Small And that Goals Behavioral and Forms For tests Interfaces after End Each Alone Partial To find out level Workmanship Which Check . Has been She indicated Some Studies to me that) Skill Kinetics Made up From Number From The parts Different simple And for every part From this is The parts Can that Know Like a ring in a Series The parts Simple And from Then connect The parts Together ((Then parts Calendar Diagnostic To know On Errors Whose Not They can reach to me Workmanship To take Measures And

styles the operation To address Weakness ,From Through Division of students to me Totals Small Based to me Type The error With Benefit From the group Distinguished In his process Learning (**Union International, 1969**) .
